= \begin{bmatrix}
4/4 &$$

Desnel et M regiler.

d) Et selved betyr Miss Desse her esternes ved - fine likesektsrekture Forst må vi benytt metrisus egenerd, 1=1 og sære egenvelsteren.

Many Summer $\frac{4}{3} + 2 + 1 = \frac{13}{3}$ for a large en sunsynlighersvelder: $\frac{3}{13} \begin{bmatrix} \frac{4}{3} \\ \frac{2}{1} \end{bmatrix} = \frac{6}{13} \begin{bmatrix} \frac{4}{13} \\ \frac{3}{13} \end{bmatrix}$

Dot er mest scrosynlig at S er i tilsted B.
